

# LONELY NIGHT

*Lonely lonely night*

*Listening to songs*

*Easing my pain*

*Losing my sleep*

*Loosing my appetite day by day*

*I just want to sleep forever*

*In this lonely lonely night*

*I miss you*

*Your scent, your smile, your jokes*

*Which gave me enough strength to  
face anything*

*Now that you are not here I feel like  
I'm nothing*

*The whole world is just a lie for me  
without you*

*Wherever you are I wish you joy*

*Forgive me if I had done something*

*I want you back*

*I want you to smile for me*

*That smile which gave me the power  
to go through even a war*

*In this lonely lonely night  
Just thinking about you and  
The memories we shared  
When the wind blows in this night  
I can smell your scent  
Even though you are away from me  
I want us to be just like back then  
Together  
No matter how many years  
I will always wait for you  
My friend !*
